Requested Patent: JP7112924

Application Number: JP19930281921 19931015

Priority Number(s):

IPC Classification: A61K7/075; C11D3/20

EC Classification:

Equivalents: JP3403227B2

Abstract

PURPOSE: To obtain a wiping agent for scalp and hair of wiping type capable of sending an active ingredient not only to hair but also to scalp, having a dry and excellent refreshing touch during and after use, high safety and low- temperature stability.

CONSTITUTION: This cleanly wiping agent for scalp and hair is obtained by mixing 30-70wt.% of one or more lower monohydric alcohols having one to three carbon atoms with 30-70wt.% of water, 0.1-10wt.% of one or more nonelectrolytic surfactants and one or more selected from organic acids and organic acid salts.
